INFORMATION DATA SHEET

C-ANCA Positive Control

Catalogue No: C023N; C023N-0.5; C023S

These preparations have been assessed and have been found to be non-hazardous.

This positive control has been screened and found to be negative for HBsAg and antibodies to HIV-1, HIV-2, P24 antigen and HCV. However, these tests cannot guarantee the absence of infectious agents. All human components should be handled with appropriate care.
The control contains 0.05% ProClin as a preservative. Although this is at a low concentration, these reagents should be considered toxic.

The information in this data sheet is to our best knowledge correct and complete and is offered in good faith as accurate. It the user's obligation to evaluate and use this product safely and to comply with all applicable laws and regulations.
